

## Job Specification

<b>Position</b>	Quality Inspector
<b>Reporting to</b>	Group Quality Manager
<b>The Company</b>	<p>Brigade Electronics, established in 1976, is at the pinnacle of commercial vehicle and mobile plant safety. A founder and innovator of sensing and monitoring systems that have helped save countless lives across the globe for over forty years.</p> <p>Whilst our portfolio can be emulated, our commitment to vehicle safety, our reliable, trusted products, and our dedicated team of experts, cannot. We invest in people as well as technology. Everyone in the Brigade family understands the life-changing significance of the products and service we provide and the importance of outstanding systems that work in the most demanding of situations.</p> <p>The Brigade Group organisation is based in the UK and has subsidiary companies in the USA, Canada, Germany, France, Italy, The Netherlands and Poland, and selling in to over 80 countries world-wide via our National Distributor network.</p>
<b>Purpose of Role</b>	<ul style="list-style-type: none"> <li>• This position requires the applicant to support Brigade's positive approach to managing and enhancing Brigades products, services and processes.</li> <li>• Applying automotive quality tools, processes and working practices to ensure Brigade and its diverse customers' product quality expectations are satisfied and continually improved.</li> <li>• The base for this position will be at our new state of the art facility in Dartford and may require occasional travel to support manufacturing partners.</li> </ul>
<b>Key Responsibilities</b>	<ul style="list-style-type: none"> <li>• Management of inspection activities at goods inwards on-site, supporting activities globally as required.</li> <li>• Implementation and continual support for conformance to industry standards, best practices, and business management systems.</li> <li>• Communication of internal and external metrics to ensure that business processes, supplier performance and customer requirements are within operational parameters.</li> </ul>
